Examiner's Amendment and Reasons of Allowance

The Status of Claims

Claims 1-6 are pending.

Claims 1-6 are allowed.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with an attorney of record, Stephen Edwards on 4/24/07.

I. The application has been amended as follows:

Claims 7-18 are cancelled.

II. The following is an examiner's statement of reasons for allowance:

Art Unit: 1625

- As a result of the pre-appeal conference with Jean Witz, Thomas McKenzie, and Taylor Victor Oh, it was decided that the prior art did not teach every limitation in the claims.
- The close prior art is Miura et al (US 5,625,095).

Miura et al discloses a process of separating acetaldehyde from the liquid containing acetaldehyde and methyl iodide by distillation; further, selectively extracting acetaldehyde with water. The various compositions are analyzed at the time of charging the starting liquid, distillation condition, and top withdrawn liquid composition.

However, the instant invention differs from the prior art in that nothing in the prior art suggests using density or calculated concentration values to control its process, nor using a process variable selected from heating rate, column pressure, feed composition, reflux composition, and reflux ratio to control the separation of acetaldehyde from methyl iodide by distillation. Furthermore, there is no motivation in the prior art to arrive at the claimed invention. In addition, unless all limitations of the claims are met, there is no prior art rejection. See In re Zurko 59 USPQ 2d 1690 (Fed Cir. 1991) and In re Lee, 61 USPQ 1430 (Fed Cir. 1991).

Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to "Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
